

Avoiding a Runway Incursion

The FAA is concerned that over 80% of runway incursions at towered airports are the result of general aviation aircraft, and the trend has not gone down in recent years. This presentation focuses on what causes General Aviation Runway Incursions, and what GA pilots can do to minimize the possibility of a dangerous incursion.

Directions: This free safety seminar is part of the 3 day Flying Aviation Expo. For more information and admission please visit: www.Aviation-Xpo.com

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
